

2027 Figures: Part D

Numerical supplement to Social Security & Medicare. Version: September 23, 2026.

Effective January 1, 2027. These are selected confirmed figures, not a complete 2027 update. Keep the 2026 figures for decisions about the 2026 benefit year.

Figure	2027
Defined standard Part D annual deductible [1]	\$700
Part D annual out-of-pocket threshold [1]	\$2,400
National Part D base beneficiary premium [2]	\$41.33 per month

How to use this sheet

Use alongside the book's Part D and annual-figures sections. The deductible describes the standard benefit; a particular plan may differ. The out-of-pocket threshold concerns covered Part D drugs, not all healthcare expenses. The national base premium is not your plan's quoted monthly premium.

Not included in this release

2027 Social Security COLA and earnings limits; Medicare Part A/B premiums and deductibles; and IRMAA amounts. Do not substitute forecasts for confirmed figures.
